

Remarks

Applicant makes of record a telephonic interview of 16 September 2008 with the Examiner where the language of claim 10 was discussed. Agreement was reached on the language and structural changes to the claim necessary to overcome the 112 rejection discussed, below.

Claims 10-20 are pending in the present application. Claims 10-20 were rejected under 35 USC 112, second paragraph, with specific reference to apparent unclarity in claim 10, lines 15 - 23 relating to the grouping of claim items. Applicant amends Claim 10 to more clearly claim the present invention and overcome the concerns of the Examiner without introducing new issues, adding new matter or changing the scope of the claim. Applicant believes that the rejection of Claim 10, and the remaining claims 11-20, dependent on claim 10 is overcome.

Applicant believes that all rejections and objections of the present application are overcome and respectfully requests reconsideration and allowance of the present application. The Examiner is invited to call the Applicant's undersigned attorney should he feel that such a call would further the prosecution of the present application.

Respectfully submitted,
Thomas J. Burke
